# 1) Rewarding Yourself

Step 1:

In the app, select "Scan" option in home page
Install Barcode Scanner from the Play Store
Make barcode with XSS attack

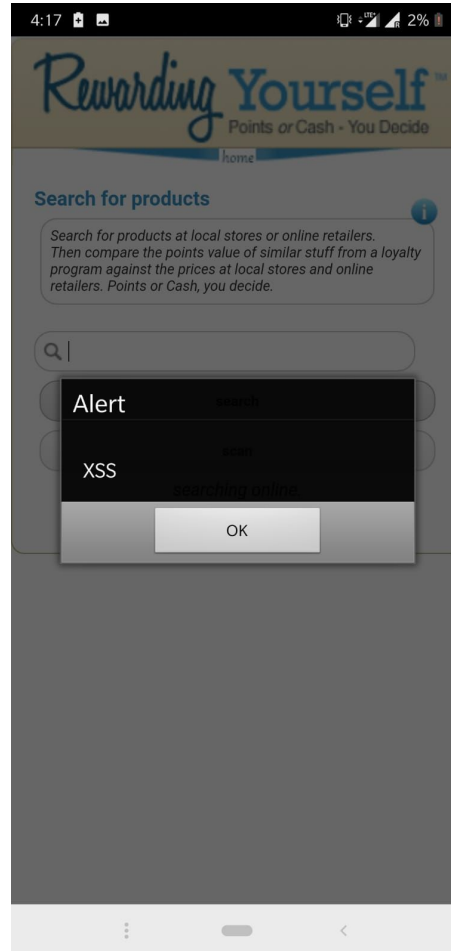

Step 2:

Create a QR code with the script below
**<IMG """><SCRIPT>alert("XSS")</SCRIPT>">**
Scan the QR code/barcode.

2) Callughan Partners

Step 1:
Open the app and in the homescreen, choose "Expense Tracker" option

Step 2:
In the "Expense Tracker" screen, click on the small "+" button at the bottom
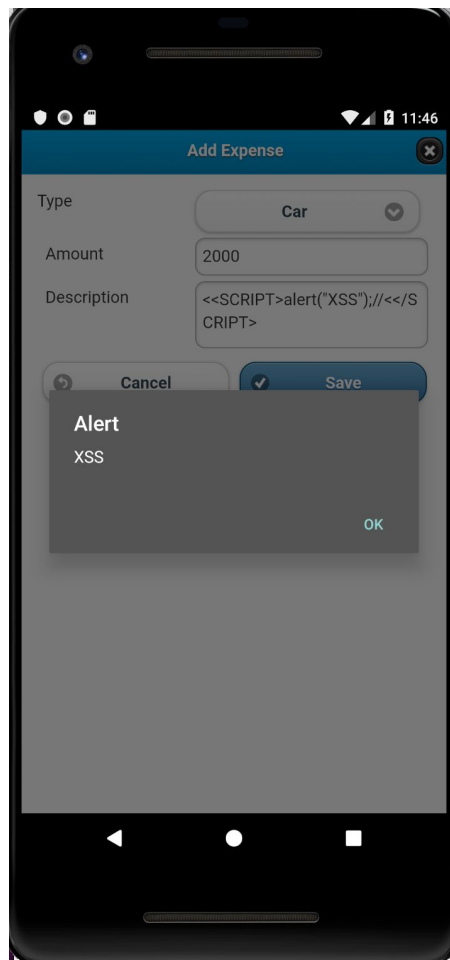

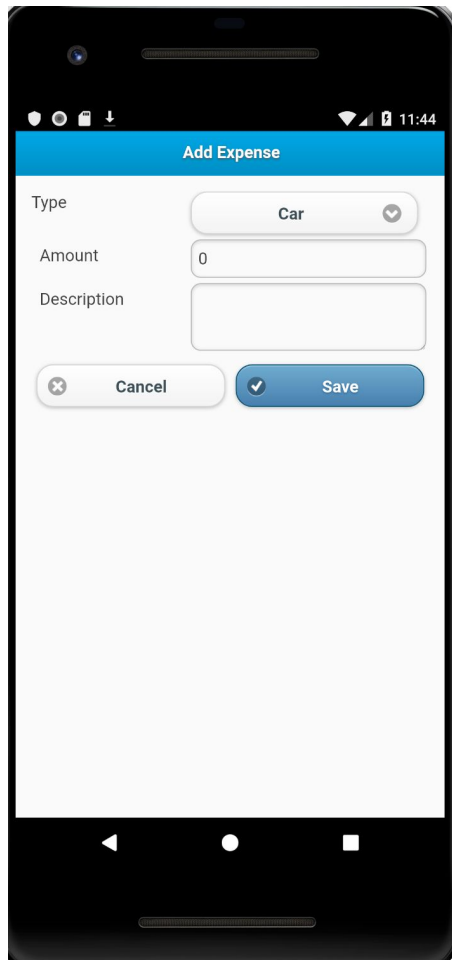

Step 3:

Fill in the details in the "Amount", "Type" and in "Description" enter the script that you want to use. We used:
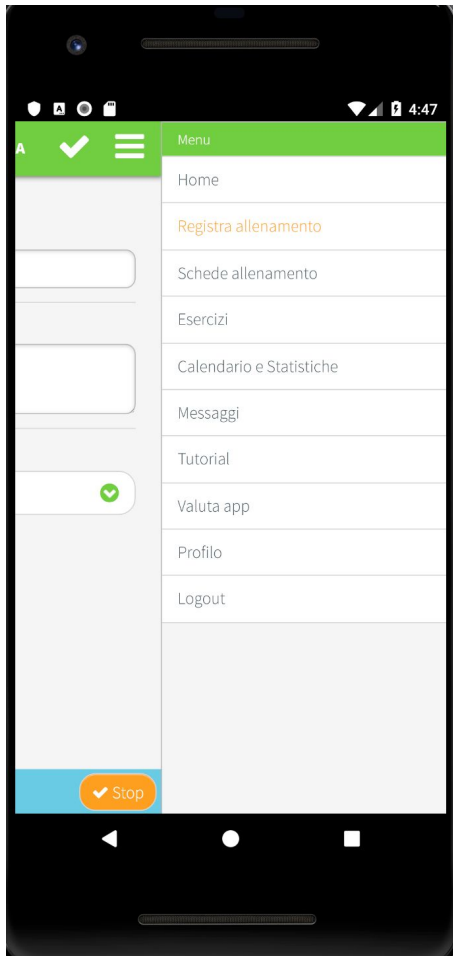

`<<SCRIPT>alert("XSS");//<</SCRIPT>`

Step 4:

When we "Saved" the expense, we found the alert popping up, that essentially means the script was executed.
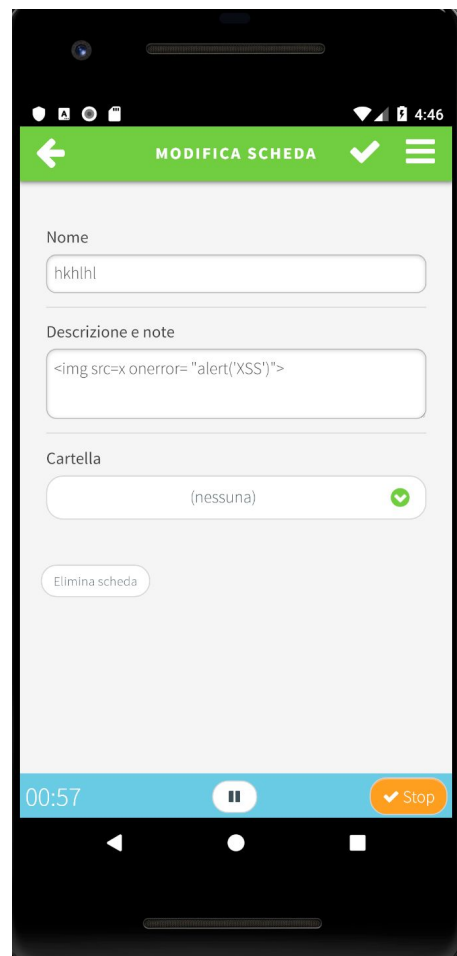

3) Fitnessitaly

Step 1:
Open the app, and in the top right hand-side menu, choose "Registra allenamento"

Step 2 :
Fill in values in all the fields, with the exception of "Descrizione e note" where we entered our script to run:
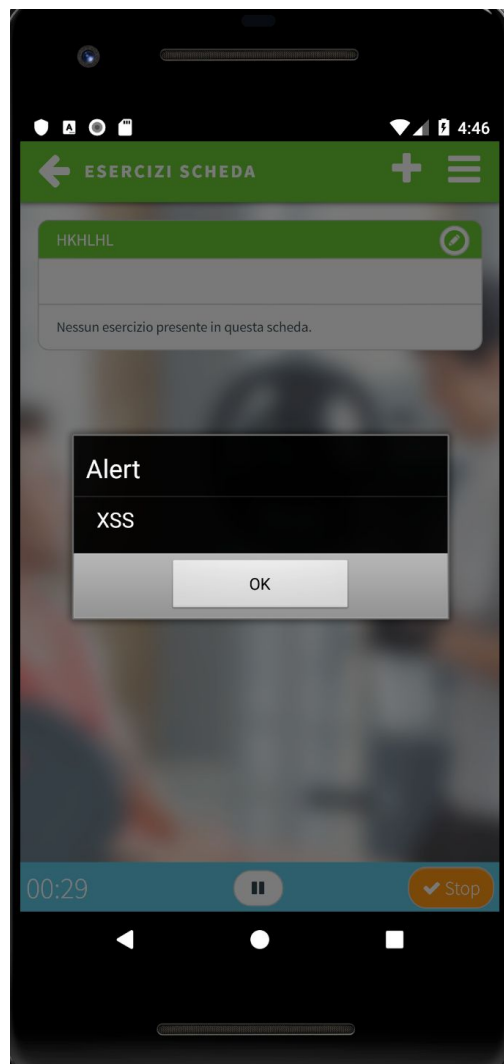

<img src=x onerror="alert('XSS')">

Step 3:

After the saving the details, from the list, tap on the newly created item.

Step 4:

You can see an alert popping up as per the script

4) Calculadora

Step 1:
Open the Calculadora app and go to "Calculate Loans" option.

Step 2:
Click on "Save" option and notice the dialog box

Step 3:
Enter some text in "Description" field and enter your javascript code in "Comments" field and "Save" the same.

Step 4:
Now go back to home page, and select "Saved Calculations" option and notice the alert popping up.

5) My Fuel

Step 1:
Open the app, and in the Settings page, enter values in all the fields and "Save". We entered the script as well here
<img src=javascript:alert('XSS')>
and

`<img src=x onerror= "alert(document.cookie)">`

Step 2:

In the next page as well, enter the script in the fields and "Save"

Step 3:
In this page, select "optionen"
on the top right
and then select "Fahrzeuge"

Step 4:
You can see the alert, that was generated.
